

ANDREW R SEABOYER

120 Washington Street, Brighton, MA 02135

phone 781.635.7060 email aseaboyer@gmail.com web www.aseaboyer.com

OBJECTIVE

Create websites, web based applications and email marketing campaigns with particular attention to usability and browser compatibility in order to improve end-user experience.

STRENGTHS

- Five years experience in the web development industry.
- Diverse background in programming including: Java, C, C++, Pascal, Basic and Visual Basic.
- Proficient with various web design technologies including XHTML, CSS, PHP, Javascript, JQuery and comfortable with Adobe's Photoshop, Illustrator and Flash.
- Experience building CMS from the ground up in order to simplify and improve client workflow.
- Significant experience developing themes and plug-ins that work with prominent content management systems (CMS), including: Wordpress and Drupal.
- Natural leadership backed by four years experience, back with excellent planning and communication skills.

EMPLOYMENT HISTORY**Boston College, Office of Marketing Communications, Brighton, MA**

Web Developer, 2007 - Present

A crucial team member working on a wide range of projects including:

- developing and deploying HTML email flyers and marketing campaigns
- managing content across several school's sites within the college
- building custom CMS which imports user-supplied text into email templates automatically, allowing customers to create their own HTML Newsletters
- designing, developing and implementing forms associated with several large scale email marketing campaigns
- managing multiple CMS including Wordpress, Campaign monitor and Serena Collage

Big Fish Communications, Brookline, MA

Lead Web Developer, 2005 - 2007

Responsibilities at a small public relations firm included:

- managing a continuously shifting group of talented designers and developers, each with a unique skill set
- hiring, instructing and mentoring multiple interns
- working hand-in-hand with clients, assessing their needs - and the needs of their target audience - in order to deliver successful websites
- staying on top of cutting edge web-technologies in order to provide clients with the widest array of possible solutions

UPS, Lynnfield, MA

Supervisor, 2004 - 2006

Worked at UPS before and during college. Promoted to supervisor after four years, and was tasked with the following:

- monitoring and managing employees in order to complete tasks on time
- working with and adjusting to a planned work flow in order accommodate changing work conditions

EDUCATION**The New England Institute Of Art, Brookline, MA**

BA, Web Design and Interactive Media, 2007

Studied web design and development methods accented with various graphic design and animation studies including 2d and 3D animation and typography.
